The Canyon News

VOLUME NUMBER XXXV. CANYON, TEXAS, THURSDAY, JULY 30, 1931 NUMBER 19

'WHEAT DAY' OFFERS MANY BARGAINS SATURDAY

Canyon Will Vote on Waterworks Bonds Monday, August 3

CITY COMMISSION WOULD ISSUE $18,000 BONDS TO EXTEND MAINS; DIRECTIONS GIVEN FOR VOTING

Canyon taxpayers will decide Monday, August 3, in the election which has been called by the City Commission, whether that body shall be given authority to issue bonds to the amount of $18,000 to construct waterworks extensions in Canyon. The polls will remain open from 8 o'clock in the morning until 6 o'clock in the evening in the City Hall.

The project would allow $18,000 bonds to be issued, payable serially, $1,000 one year from their date and $1,000 each year thereafter up to and including 1949, bearing interest at the rate of 5 per cent per annum, payable semi-annually, and a tax to be levied sufficient to pay the interest on said bonds and to create a sinking fund sufficent to redeem them at maturity.

The ballots must be made out in accordance to prescribed rules; if they are in any way different, they will be thrown out. In the election on the park bonds, six ballots were thrown out for this reason.

The election notice says that, "All voters who favor the proposition to issue the bonds shall have written or printed upon their ballots the words:

"FOR THE ISSUANCE OF BONDS."

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF BONDS."

The following men have been appointed managers of the election: A. M. Smith, presiding judge; C. H. Jarrett, and J. D. Gamble, judges; and Hud Prichard and Oscar Gano, clerks.

The following extensions of the waterworks will be provided for:

Eight inch main from water plant, east in alley north of First avenue to Fifteenth street. Thence south on Fifteenth street to six inch mains on Second avenue.

Six inch main on Second avenue from the northeast corner block 19 C. C. Thence east to connect with six inch main north of block 2 Ballard Addition.

Six inch main at connection on Twenty-fourth street and Fifth avenue. Thence east on Fifth avenue to Twenty-sixth street.

Thence south to Seventh avenue and Twenty-sixth street.

Thence west to connection with six inch main on Twenty-fourth street and Seventh avenue, making a loop.

Six inch main beginning on Twenty-sixth street and Fifth avenue. Thence north on Twenty-sixth street to Fourth avenue.

Thence east on Fourth avenue 300 feet to point.

Thence north through the Maxwell Addition to a point on Second avenue.

And other waterworks extensions as the City Commission may see fit to install, all in Canyon.

Fire Destroys Johnson House Monday Morning

Fire completely destroyed the residence of W. L. Johnson early Monday morning at 2:15 o'clock. The house was on fire long before the alarm was turned in by C. H. Stratton, night watchman. Altho the fire trucks went out, the fire could not be put out because no fire plug was near and because the house was too near gone.

The fire is supposed to have caught from an oil stove.

Mr. and Mrs. Johnson were at home but they saved nothing, barely getting out with their lives.

The house and furniture were insured.

F. F. Farrell and Dr. M. L. Saddoris went to Oklahoma the latter part of last week to see Mr. Ferrell's brother who has been seriously ill but who was reported much better the first of this week. They went up to Salpulpa to visit friends and returned to Canyon the middle of the week.

Roy Matney and Bill Lockhart spent the week-end in Weatherford with Mrs. Lockhart who is visiting her grandmother.

Pavement Between Amarillo, Canyon To Be Completed

The only unpaved strip of highway between Canyon and Amarillo will be paved with a new type of paving which has never before been used in the state, according to W. J. Van London, division construction engineer. The work will begin August 5.

Constructed of gravel and emulsified asphalt, the new type of paving will be considerably cheaper than asphalt and crushed stone paving. Gravel is plentiful and cheap in the Panhandle, while crushed stone is expensive.

The test strip will be laid by the Precote Corporation of America at a cost of about $1,200, and if the road does not hold up according to specifications the state will not have to pay for it, Mr. Van London said.

Since gravel is composed of all sorts of rock there is some doubt whether an asphalt emulsion can be made that will be suitable for the varying types. This difficulty does not appear with crushed stone, in which the texture is the same throughout.

The emulsion is composed of asphalt and water with a soap or colloidal emulsifier.

Craig Fattens Stock on Cheap Grain for Gain

There is at least one Randall county farmer who will not be bothered nearly so much with the low price of wheat during the coming months as perhaps many of his neighbors will be. That man is J. M. Craig, who resides 9 miles south of Canyon. He is a practical farmer of many years experience on the Plains of Texas.

Before the beginning of the 1931 harvest of his grain crop, Mr. Craig constructed, on his farm, a building that is very unusual in the way of a farm grain storage plant. This building is a granary, styled on the order of a modern grain elevator, such as are used in handling the large crops in the Panhandle.

At the present time there are 10,000 bushels of wheat and barley stored in the elevator, which is filled to its present capacity. Although the building was not fully completed before the harvest began, a place has been prepared for the installation of a cup elevator for the handling of the grain and when this is installed the 10,000 bushels of grain may be moved by shoveling only a few bushels by hand.

There were two granaries on the Craig farm before the construction of the new one. Each of these has already been filled to capacity with oats and barley. One contains 2,500 bushels of oats and the other about 3,300 bushels of barley. Besides this storage, Mr. Craig has built a temporary storage place for an additional 4,000 bushels of wheat.

None of the grain now stored on the Craig place will be sold on the grain market. Instead, it will be fed to hogs and cattle. The low

Mastodon Fossil To Be On Exhibit Here This Week

The mastodon fossil recently found near Amarillo on the property of Tom Cotten was brought to the College Tuesday by the McKnight Transfer Company of Amarillo without charge.

The fossil was obtained for the Panhandle-Plains Historical Society through the efforts of Floyd Studer and Judge F. A. L. Morgan of Amarillo, according to L. F. Sheffy.

The mastodon will be on display at the College between 2:30 and 4:30 o'clock Thursday and Friday and probably Saturday. An admission of 10 cents will be charged to pay for the materials which were necessary to preserve this fossil and others which the Society will obtain.

SMALL YIELD OF WHEAT LOWERS EARLY ESTIMATE

RANDALL CO. HARVEST NEARS END; PRICE DECREASING.

About 725,000 Bushels of Wheat Shipped from the Canyon Elevators.

With practically the entire wheat crop of Randall county harvested, the total number of bushels of wheat may be estimated as far short of the 2,000,000 mark which was the early estimate.

Lack of rain last winter and this spring and hot dry winds are largely responsible for the shortage in the actual yield over a section 50 miles wide by 60 miles long.

From figures secured from six elevators in Randall county late Tuesday and Wednesday afternoon, grain shipped from Canyon amounts to about 725,000 bushels, averaging about 14 bushels to the acre. It is impossible to determine how much wheat from Randall county was shipped from Dawn, Happy, Wildorado, Bushland, Washburn, and Amarillo, and also how much grain the farmers are keeping on their farms. The News also was unable Wednesday to find out how much grain had been shipped from Haney switch and from Ogg switch.

Estimates of the average yield per acre in the vicinity of the various elevators varied considerably. The lowest was about 7 or 8; the highest was 20 bushels to the acre.

The price of wheat which began at about 32 cents a bushel went steadily down until it was 22 cents at some of the elevators Wednesday.

The Canyon Grain and Elevator Company had shipped 50 cars of wheat up to Wednesday, each car averaging about 1500 bushels.

The Felix Neff Elevator had shipped 150,000 bushels up through Wednesday noon.

Hardeman-King Elevator had shipped 24 cars with an average of 1500 bushels or less to the car, and had 10 cars stored in the elevator.

The Ralph switch elevator had shipped 42 cars through Tuesday night and had 8 cars stored in the elevator.

Great West Mill and Elevator Company of Umbarger had shipped 80 cars.

The Farmers Elevator of Umbarger had shipped 65 cars through Tuesday evening.

W. T. Dramatics Club Gives Play Today at 3:30

The W. T. Dramatics Club will present the play, "The Flattering Word," today in the education building auditorium at 3:30 o'clock.

C. W. Batchelder will play the lead in the play.

After having missed one presentation a week ago, due to an accident to one of the students in the cast, the Dramatics Club again took up its work Thursday and presented a Japanese play "Dear Little Wife," under the direction of Rosemary Lewis.

According to C. W. Batchelder, member of the speech department who has had a good deal of the work of the Dramatics Club this summer, the acting in "Dear Little Wife" was much above the ordinary, and those who did not see it missed an artistic treat. The setting for the play was exceedingly well done, and was very attractive.

The student's who took part were Cody Bentley, as the "Husband," D. V. Biggers, as the "Lover"; and Esther Root as "Dear Little Wife."

"Dear Little Wife" has been presented by the Club before this time, and has proved popular among the students and patrons. It is the story of a little Japanese wife who in trying to deceive her husband is herself caught in a deadly trap.

Mr. and Mrs. W. A. Pierce and daughter moved to Shamrock Saturday. They will be gone until September.

Gordon Webb, formerly on the Pampa Evening Times, was in Canyon last Friday on his way to Abilene.

Clovis Defeats Canyon Golfers To Score of 7-5

Playing Clovis golf team at Clovis, N. M., last Sunday, the Canyon team was defeated to the score of 7-5. The team is now tied for second place with Tulia with five more games to play.

Since next Sunday is an open date, the next game will be played August 9, with Hereford, here.

The Canyon men who made the trip as the team were: Jimmie Gamewell, Ed Mickle, Bill Bryant, Lee Foster, Carl Scott, Law Sone, Ross Craig, T. V. Reeves, A. D. Weatherly, H. A. Brown, H. W. Hartman, and Winston Savage.

The Canyon team to meet the Hereford team will consist of the above men with the exception of Mr. Brown and Mr. Mickle whose places will be taken by Oscar Gano and F. E. Savage.

Annual Concert of College Chorus Given Wednesday

W. T. College Chorus and Orchestra present their annual midsummer concert Wednesday evening at 8:15 o'clock in the main auditorium to a large audience.

The orchestra gave the first division of the concert; it consisted of Mendelssohn's "Fingal's Cave" overture, and Grieg's "Peer Gynt Suite." These numbers were followed by Grieg's cantata "Alav Trygvason," sung by the college chorus, with Miss Pauline Brigham, head of the department of piano, as accompanist. Miss Florence Snodgrass, contralto, and William Dawes, baritone, were the soloists in "Alav Trygvason."

W. R. Clark, head of the music department, has charge of the concert.

Do your shopping in Canyon.

REEDS RESIGNS TO BE COACH AT OKLA. COLLEGE

VACANCY AT W. T. HAS NOT BEEN FILLED YET.

Reeds Leaves For Oklahoma Latter Part of This Week; Family To Follow.

Coach Claude Reeds resigned his position as football coach at W. T. College Friday to become head coach at Oklahoma Central Teachers College, Edmond, Oklahoma. He will go to Edmond the latter part of this week.

Mr. Reeds' family will follow him later. The college opens September 7th.

Officials at the College are not ready to make a statement regarding a new coach, although a decision may be reached by next week, according to Coach Sam D. Burton.

Mr. Reeds was elected to the post June 19, as a result of a general shake-up of all institutions of Oklahoma, which was instigated by Governor Murray.

Coach Reeds came to the College from the Oklahoma Southwestern Teachers College, Weatherford. He was a football star at Oklahoma University; later he served as assistant coach there. He has also coached the Colorado Aggies at Ft. Collins, Colo.

Guests in the C. M. Presley home Sunday were Mr. and Mrs. H. D. Cline of Amarillo, Mrs. E. E. Cline and son, Kenneth, of Washington, Iowa, and Mrs. Owen Craig of St. Jo, Mo.

Mrs. Bill Lockhart returned from Weatherford Tuesday where she had been visiting her grand mother.

Harold Shanklin visited his parents over the week end.

Canyon Chamber of Commerce Takes Action Against Slaughter of Herd of Buffalo on Goodnight Ranch

Local Chamber of Commerce Stages Radio Program Over WDAG Saturday Night at 8:30 O'Clock as Part of Proceedings.

Panhandle Raises Protest Sending Telegrams to Governor Ross S. Sterling Asking That He Take Measures to Save Herd.

A radio program appealing to the people of the Plains to use all forces possible to keep the Goodnight buffalo herd from being slaughtered this fall, will be staged under the auspices of the Chamber of Commerce of Canyon over station WDAG in Amarillo from 8:30 to 9:30 o'clock Saturday night.

This program will follow on the heels of the great wave of resentment from people of this section who earlier in the week offered a vigorous protest against the plans being made for the slaughter of the buffaloes.

The program is being planned for the Chamber of Commerce and will be directed by C. W. Batchelder of the Public Speaking department of the College. An outline of the program indicates that it will be a very unusual one and will be outstanding in that it will feature the theme of "Saving the Buffaloes."

Speaking of the program, the Chamber of Commerce secretary said, "We are very grateful to the radio station owners for making possible the program to be presented on the air Saturday evening. The offer came from the management of the station as a voluntary one and every minute of the time will be donated to the Chamber of Commerce free of charge."

Every person in this vicinity is urged to tune in and hear the program beginning at 8:30 Saturday night. "A word of appreciation to the station either during the program or afterwards will be greatly appreciated by both the broadcasters and the Chamber of Commerce," Wortham added.

Some of the best talent in Canyon will be used in Saturday night's broadcast, Mr. Batchelder states. The touch of pioneer western life will be brought in song and story as the tales of the days when the buffaloes were monarchs of the plains, are told. President J. A. Hill will speak briefly, as will one or two others.

With the announcement that a big hunt would be staged in November to kill all the buffalo on the Goodnight Ranch, ranchmen, pioneers, Chambers of Commerce, and other interested persons in the Panhandle have raised their protest against such proceedings.

The herd which now includes about 20 calves and 186 old animals are the descendants of animals which Colonel Charles Goodnight gathered together when there were only a few buffalo left roaming the plains. In the past it has been the custom to slaughter only the surplus members of the herd.

It is planned at present to sell many of the young animals to zoos, parks, ranchmen, etc.

Amarillo, Claude, Clarendon, Memphis, Canyon, Pampa, and other Panhandle towns through their Chambers of Commerce have wired Governor Ross Sterling protests against the killing of these animals and urging that he take some action to preserve them.

"There seems to be a spirit of resentment throughout the whole Panhandle against the slaughter of the buffalo which are the last of those which formerly overran the Plains. We feel sure that the Palo Duro canyon is the proper place for them providing the state through it Governor and Legislature take suitable action to preserve for posterity these buffalo," Fred Wortham, secretary of the Canyon Chamber of Commerce, said Tuesday.

Honorable Ross S. Sterling,
Governor of Texas,
Austin, Texas.

Reports are that buffalo herd at Goodnight to be slaughtered. Entire northwest Texas anxious to preserve herd. This can be accomplished by creating state park in Palo Duro canyon and purchase herd. May we have your co-operation on this project by sub-

Flowers Spoke To Rotary Club Tuesday Noon

The Rev. R. L. Flowers was the speaker at the weekly luncheon of the Rotary club Tuesday noon. Introduced by Oscar Gano, chairman of the Club Service committee, he spoke on "What Brings Happiness, Peace and Contentment to Man."

Man will tend to be Happy if he is true to himself, if he lives for the day attempting to make each day a masterpiece, if he helps others, if he reads great literature, if he tries making friends a fine art, and if he works with and for the church, according to Mr. Flowers.

Oscar Gano asked for a meeting of the Executive Committee after adjournment. He asked that Joe Hill meet with the committee.

Visiting Rotarians present were: C. D. Hughes, Amarillo; H. F. Allspaguh, Amarillo; and G. W. Wright, Amarillo.

Guests of the club were: R. L. Flowers, Georgetown; John L. Gray, Chicago, and K. E. Fink, Clarendon.

Butterfat Test Licenses To Be Issued by State

Austin, Texas., July 28.—Issuance of permits to test milk and cream for butterfat contents, under authority of a law enacted by the 42nd legislature, will start within the next two weeks, according to M. S. Fraze, weights and measures chief in the state department of agriculture.

Mr. Fraze hopes to have every milk and cream tester in the state licensed by the time the law goes into effect on August 22, he said, in order that the department may proceed from that date in enforcement of the law.

The law, sponsored in the legislature by Rep. A. B. Tarwater, makes the Babcock test of butterfat content, universally recognized, the standard for all testing in the state. It was designed chiefly as a protection to the farmer and small dairymen, many of whom, according to Mr. Tarwater, had complained of the test, made on their products.

The law specifies that every person operating a cream or milk testing apparatus to determine the percentage of butterfat for the purpose of purchase must secure a license from the commissioner of agriculture. The issuance of this license will be contingent upon the competency and reliability of the applicant. Inaccurate testing will constitute reason for revoking the license.

The law sets out all tests and regulations with which a tester must comply, those being identical with those laid down by the Bureau of Standards of the U. S. Department of Commerce.

"It is our desire," Mr. Fraze said, "to make this law equally beneficial to the farmer and to the cream and milk station operator, and our inspectors have been instructed to do everything within their authority to produce this result."

Fred Pool, with the Department of Agriculture, division of weights and measures has been in this section for the past several weeks running check tests with the milk and cream buying stations and milk distributing plants. He is said to have regulated some variations in tests in Amarillo. While in this section of the Panhandle, Mr. Pool has made Canyon his headquarters.

District Court Will Meet Here Monday, Aug. 1

District Court will meet here next week, beginning August 3. The court will last three weeks.

Sheriff John Fry has previously notified the men who have been named to serve on the grand jury and the petit juries.

There are fewer cases to come up than previously, according to Mrs. Berl Mayfield, county clerk; most of the trials are expected to be short and easy to get through with.

Seven cases will be brought before the criminal docket of the District Court.

C. OF C. GIVES GRAIN EXHIBIT WITH PRIZES

CANYON STORES WILL GIVE MERCHANDISE.

Farmers Only May Compete in the Show; No Fees of Any Kind Required.

"Wheat Day" in Canyon promises to be one which will offer strong competition with the low price of grain products. "Wheat Day" will be staged on Saturday, August 1, in the place of the regular Trades Day of the past. Merchants of Canyon will offer to the people of this vicinity bargains that will outclass the low prices of grains.

In connection with that and in carrying out the idea, the Chamber of Commerce is sponsoring a grain show for Saturday. This will be held in the court house and prizes will be given for the best in wheat, oats, barley and rye. Merchandise prizes reaching upward to $25.00 will be awarded the winners.

First, second and third prizes each of the four grains will be given.

The prize list which has been announced by Fred E. Wortham, secretary of the Chamber of Commerce is as follows:

For Wheat

$2.50 in trade, The Peoples Store.
$2.00 in trade, M System.
10 gallons gasoline, The Electric Service Station.

For Oats

Set of plates, cups and saucers, Canyon Hardware.
$1.00 in trade, Piggly-Wiggly.
1 work shirt, M. E. Moses Co.

For Barley

2.00 in trade, Canyon Supply Co.
$1.00 in trade, McCarty Bros.
$1.00 in trade, Eastwood's.

For Rye

200 Self-locking Egg Cartons, value $3.50, Warwick Printing Co. (May be exchanged.)
$1.00 in trade, McCarty Bros.
$1.00 in trade, Magnolia Service Station.

Entries on the exhibits of grain will close at 1:30 o'clock Saturday and the judging will take place beginning at 2:00 o'clock. All entries must be listed with the Chamber of Commerce secretary and they will be displayed in the north hall of the court house on the first floor.

All farmers in this trade territory are urged to bring a gallon of the best grain raised on his farm this year and enter it. The show is open to farmers only and a farmer may enter in competition in as many of the four classes of grain as he desires. There are no fees of any kind. It will all be free.

The grain show will take the place of any entertainment features and should prove interesting to all farmers in this territory.

The splendid bargains always offered each special day by the stores of Canyon, the attractive shopping places of this section, together with the extremely low priced ones this month will mean much to the people of Canyon's trade territory.

Jarrett Answers Questions About Graduate Work

It seems there has been some misapprehension as to the subjects W. T. is offering to graduate students. Dr. Jarrett says: "Work in the graduate field in W. T. now is limited to a major in the field of education. Minors in graduate work may be had in history, English, chemistry, Spanish, geography, Latin, government, and possibly in other fields.

"It is the purpose of the institution to extend the work as fast as the faculty can be developed and a demand created. Our standard requires all teachers in the graduate field to hold a Ph. D. or equivalent and all teachers who give work of graduate standing must have at least a year beyond their M. A. Degree."

Roy Matney who has been attending the first semester of the summer session of the University of Texas returned to Canyon Friday to visit his mother, Mrs. Edna Moore.

MEMBER TEXAS PRESS ASSOCIATION

WHAT TO DO WITH OIL?

By Clyde W. Warwick
Representative 123 District.

Dilitory tactics, uninteresting questionings, uninformed witnesses, have largely made the rule of the first week of the investigation which was conducted by the House of Representatives during the past week on the oil situation now confronting the State.

Probably three-fourths of the time has been wasted and the investigation has floated around like a huge ship without a rudder. Every member of the House seems to feel it within his proper rights to ask any and all questions which may come to his mind regardless of the will of the steering committee of five, which is supposed to have charge of the investigation, and regardless of whether or not the witness had answered the same question a half dozen times previously.

After the House investigation had been under way several days, with the Senate adjourning each day without taking up any bills, the Senators decided to start a counter investigation of their own. In spite of the fact that several bills on conservation have been introduced in both Houses, no action has been taken on these bills but both bodies are spending their time in the questionings.

Various attempts have been made to stop the investigation in the House and get down to business and attempt to pass some sort of legislation but every attempt has been voted down.

One thing certain has developed in this investigation: Under the present arrangement the Railroad Commission is incapacitated to handle the oil situation. It is clearly shown that members of the Commission do not have the proper training and back ground or information which is necessary to successfully handle this great oil problem. It has been largely a question of buck passing by members of the Commission to the various employees in the oil and gas division. Those who have heard the testimony are firmly of the conviction that never will the oil situation be solved until a separate commission is established and manned by appointees who know the oil business. The Governor has gained one great point of advantage. He wants a new conservation commission. Many of the members of the House after hearing the testimony have realized that he is correct and will vote for this new commission although a few weeks ago they may have been opposed to the establishment of another commission.

An attempt was made this week to ask the Governor to submit the question of appropriations in order that the bills passed in the regular session might be trimmed on account of conditions being so much worse over the State. The House promptly killed the resolution. One thing is certain; that appropriations will be hard to pass in adequate amounts two years from now unless conditions over the State are materially improved. State institutions are warned to set their houses in order before 1933 as it is assured there will be radical reductions in their appropriations.

The Governor is being besieged with numerous requests to submit various kinds of subjects for legislation. He has let it be known that no major subject will be submitted until the oil situation is cleared. He is right.

A drive is being made for the submission of the drivers license bill. The writer believes that this bill would have little or no chance at this time. Those interested must put on a campaign of education during the coming two years. The people must be made to realize that accidents have been decreased 25 per cent in the states which have the drivers license bill. The average legislator does not see the necessity of this legislation.

The State Board of Education has set the scholastic per capita at $17.50 for the coming year. This is somewhat a surprise as it was generally conceded that the State would not have sufficient money for this per capita. If the State can pay this amount it will be a good thing for the common schools but if the State does not have sufficient money it will be bad for thousands of districts over the State.

The question of pensions is again serious. The pension fund is now nearly a million dollars in the red. It seems that every attempt to try to help the old soldiers has resulted disastrously. It is reported that flood gates were open in the last legislature to several hundred men who were boys when the war was in progress and served in so-called home guards rather than in the Confederate army. This is a bad situation so far as those who are entitled to a pension is concerned.

VOTE ON WATER BONDS

On next Monday the voters of Canyon will pass upon the question of a bond issue to extend the water mains in the city.

Several facts should be taken into consideration by the voters in casting their votes upon this question. In the first place, the extension of the water mains will take care of sections of the city which are not now adequately served with water. In the second place, it will materially improve the service of the water system in many sections of Canyon in which the pressure now is low owing to the fact that residents must be served by extensions from the water mains. In justice to all citizens who are paying their taxes for the support of the city government, all should receive equal service from the water plant.

The greatest consideration is the fact that the city key-rate will be reduced if a new line is run from the city plant to the down town section. At the present time there is only one line serving the city that comes from the plant to Fifth Avenue and runs under the high school building. If that building should burn or a break occur under that building, the rest of the city would likely be shut off from water supply. We would then wonder why it was that no action had been taken sooner to guarantee the major part of the city with water and eliminate the danger of a complete shut-down owing to the fact that only one main had been provided.

The water extension is the best insurance that the city can have to guarantee an adequate supply of water for all purposes and at the same time reduce the key-rate which in itself affects the pocket book of every property owner in the city.

While material and labor is cheap is a fine time to make municipal improvements.

Seriously consider the situation and then vote next Monday.

GOODBYE, BUFFALO

It is with sincere regret that we have learned that the famous old Goodnight buffalo herd is to be slaughtered and sold. It is quite as distressing as the recent Indian festival at Jack Hall's ranch, which was to us nothing more nor less than a blatant, undignified, and disrespectful—though perhaps fitting—funeral service, for the remaining marks of the soul-stirring civilization just passed.

And now the buffalo are to go. The progenitors of the small herd of 4 snorting in W. T.'s buffalo pens. The symbols of the strength and courage and battering ability of the West Texas football champions. They are to go, unless "public sentiment intervenes." And will public sentiment do this? Or is there any real public sentiment in this direction? We believe there is—in this part of the country. Many old-time cowmen, pioneers of the West and Southwest will deeply regret the passing of these, the most striking mementos of the days of their exciting youth, and may perhaps do much to prevent it.

If it is impossible to longer pasture the buffalo on the wide grazing land now frequented by them, why should they be killed off instead of being given, the whole bunch, to parks, national or state?

While plans are being made for the destruction of these animals, not far from their range, the fossil of another animal doubtless no less important in its day than these shaggy beasts in theirs, is being dug up, and exclaimed over. 'S funny!—The Prairie.

COLLEGE BAND TO PLAY AT 7:30 TONIGHT

The College Band concert which was postponed last Thursday night because of the sand, wind, and rain, will be given tonight at 7:30 o'clock in front of the Administraton Building, according to C. E. Strain, director of the band. The program will be about an hour. The public is cordially invited to attend, Mr. Strain said.

The band may play on the square next week if conditions are favorable.

TIME TO CATCH UP.

"Mummy, Tom has taken the largest piece of cake, and it is unfair, because he was eating cake three years before I was born."—Answers.

News in Canyon 25 Years Ago

(From the files of the Canyon City News, Friday, July 27, 1906)

J. E. Wesley of Ceta, in town Monday, says that his father, J. T. Wesley, has just threshed out thirty-nine bushels of wheat to the acre. This is the best turnout for this season yet reported.

W. A. Farr returned Friday from an extended trip down in the roughs of Uvalde county and adjacent country. He has bought a ranch of 6,000 acres on the Nueces river 16 miles from Uvalde, and also a residence in that town and expects to move there about Nov. 1.

Hall-Abbott and the "Panhandle" people brought in one excursion car last week and the Tallmadges had another. The contents of the latter car went south to Swisher and Hale counties.

Tomorrow is the time to pass on the candidates.

344 votes were polled in the general election of 1904.

According to the poll list and exemptions there are in the county 378 legal voters outside of new comers and those just coming of age.

All our county candidates will leave the anxious seats after tomorrow night.

Dr. S. L. Ingham of Hampton, Iowa, has rented office rooms in the O'Keefe-Moreland building and will be located here for the practice of dentistry about the first of September. Dr. Ingham is a graduate of the Dental School of the University of Iowa, and comes here with the best of recommendations. He has rented a house and will bring his family here, and will fill a long felt want in our community.

Newt Reeves is fixing to take a car of horses to Oklahoma about Saturday.

Sheriff Slover corralled two girls that were running away from home this week. The elder one, 17 years old was from Claude and came here to marry a young man that accompanied her. The other was 15 and had, so 'tis said, started to Kansas with the same object in view. She hailed from Plainview. Mr. Slover held them until their parents came after them.

COMMISSIONERS CUT WAGES ON ROAD MEN

At the special meeting of the County Commissioners Court Monday which was agreed upon at its last meeting, the wages of the men who are employed to tractor-drag the roads were cut from 35 cent a mile to 30 cents a mile. Also the wages of the men engaged in road work were cut from 35 cents to 30 cents a mile, according to Judge S. B. Orton.

The next regular meeting of the Commissioners Court will be the second Monday in August.

MRS. CAMPBELL HOSTESS TO WIFE OF GOVERNOR

Mrs. R. L. Campbell of the Fairview-Palo Duro community, entertained friends and guests at a sunrise breakfast one morning last week honoring Mmes. Kellogg and Sheafer of North Dakota, mother and sister of Mrs. C. C. Kellogg of Wildorado. Mrs. Shaefer is the wife of Gov. Shaefer of North Dakota.

The scene for the breakfast was a beautiful, picturesque knoll just above the Campbell ranch home. Bacon and eggs were fried on an open fire and served with iced tomatoes, buns, coffee and ginger bread. The long breakfast table was ornamented with a center piece of orchid cactus blooms. Breakfast was ready just as the sun rose, and inn a short pause before its service, Mrs. Lester Dysert gave an original poetic tribute to the rising sun.

The following guests were present besides the honorees: Mrs. C. C. Kellogg of Wildorado, Mrs. George Rogers, Mrs. Carl Fuqua, Mrs. W. E. O'Neil, Mrs. Thomas Waston, Mrs. Pete Gouldy, Mrs. Lester Dysert, Mrs. Guy Roberson, Mrs. Ollie Grabbe, Mrs. John Boling, Mrs. Ben Ozee, Mrs. Harry Elam, Miss Mary Ghant, Miss Doris Gene Robertson, Miss Nadine Elam, and George Shaefer.

Mrs. J. E. Williams of Dallas who has been visiting her sister, Mrs. B. Brewer, for the past several weeks returned to her home Sunday. She was accompanied to Memphis by Mrs. Brewer and family who remained for a week end visit with relatves.

MRS. SHAW IS HOSTESS TO BRIDGE CLUB FRIDAY

Variation of color marked the decorations, favors, and refreshments of the party with which Mrs. Travis Shaw entertained last Friday afternoon, when she was hostess to the regular Friday afternoon bridge club.

Cut flowers, mainly daisies and sweet peas, adorned the rooms.

Mrs. Shaw's little niece and nephew of Chicago passed out varicolored balloons to the ladies, asking politely, "what color of balloon their little girl or boy would like best."

Refreshments of basket shaped green ice cream, pink angel food squares, daisy mints, and orange punch were served to the guests.

Out of town guests included Mrs. Shaw's mother and sisters, and her sister in law, Mrs. John L. Gray of Chicago. Mrs. J. A. Hill and Mrs. J. M. Brown came over after bridge playing and visited with the guests.

Four tables of bridge were played.

MRS. STEEN HOSTESS TO LOYAL DOZEN

Mrs. Victor Steen was hostess to the members of the Loyal Dozen club at their regular meeting last Friday afternoon.

At the end of a pleasant afternoon spent in doing needlework, ice cream and cake were served.

Those present included: Mrs. Rhea Robbins, Mrs. W. T. Simmons, Mrs. Ed Weeks, Miss Edith Steen and the hostess. Mrs. Weeks is a new member of the club, and will entertain the members at her home tomorrow afternoon.

CANYON GIRLS VISIT AT CONWAY PAST WEEK

Miss Mary Alice Weaver and Miss Ester May Smith of Canyon were house guests of Miss Thelma Calliham of Conway last week. The girls were entertained with a number of social events during their visit.

They attended the Community Ice Cream Social Friday evening, and Sunday a group of the young people enjoyed lunch at Rocky Ford crossing and showed the girls over the city of Borger in the afternoon.

Monday evening a party composed of R. W. Calliham and family, Misses Smith, Weaver, Velma and Jessie Padget went to Dripping Springs where they spread a picnic supper. After hiking over the canyons Tuesday morning, lunch was served at Luttrell Springs and a very tired group of girls climbed into the truck and returned home in time for a tasty supper.

Wednesday evening Miss Calliham entertained with a party in her home. Friday night a slumber party was given at the home of Mrs. H. L. Calliham.

Miss Orlena Bandy of Canyon joined the party Friday and that evening a weiner roast was given. The girls returned home Sunday.

MISS ANNA I. HIBBETS IS GUEST OF HONOR AT DINNER

Dr. C. E. Donnell and his daughter, Miss Lillian Donnell, entertained with a dinner Thursday evening honoring Miss Anna I. Hibbets.

Guests included, Miss Hibbets, the honoree; Miss Darthula Walker, Miss Jennie C. Ritchie, and Miss Edna Graham.

DR. DRANALL IS HONORED WITH SURPRISE PARTY

Honoring her father, Dr. Frank M. Darnall, Miss Margaret Darnall entertained with a surprise party at their home on fifth avenue Saturday evening.

Miss Nancy Graham, niece of Miss Edna Graham of the mathematics department of the college, received the guests at the house, while Miss Darnall was driving with her father. They arrived at 8:40 to find the guests assembled and waiting for the honor guest, who was amazed to find so many of his friends gathered.

Games were played throughout the evening.

Following the games, a delightful refreshment course of fruit punch, frozen fruit salad, cheese sandwiches and raisin nut sandwiches were served. Mints and nuts were served during the evening.

Guests for the unique affair were Dr. and Mrs. J. A. Hill, Dr. and Mrs. C. A. Pierle, Dr. and Mrs. Harris M. Cook, Dr and Mrs. R. P. Jarrett, Mr. and Mrs. D. A. Shirley, Mr. and Mrs. Travis Shaw, Mr. and Mrs. L. A. Asgood, Mr. J. S. Humphreys, Mrs. Henrietta Scott, Mrs. Geraldine Green, Miss Enna Graham, and Miss Nancy Graham.

MRS. T. M. MOORE ENTERTAINS CLUB

Mrs. T. M. Moore entertained the As You Like It club with bridge at her home Thursday afternoon. Summer flowers in pastel shades made the entertaining rooms cool and inviting for the guests. An ice course was served after the games.

Those present were: Mrs. N. E. McIntire, Mrs. Harris M. Cook, Mrs. John Fry, Mrs. Pat Whittington, Mrs. Dan K. Usery, Mrs. Lottie Williams, Mrs. Elizabeth Chandler, Mrs. Earl Robbins, Mrs. Frank R. Phillips, Mrs. J. L. Duflot, Mrs. C. W. Batchelder and Miss Esther Rudolph.

MRS. McCREREY ENTERTAINS CIRCLE

Mrs. J. W. McCrerey was hostess to the members of Circle No. 1 of the Baptist Missionary society at her home Tuesday afternoon.

Election of officers was held for the ensuing year and Mrs. Harris was elected president, Mrs. Cole, vice-president; Mrs. W. E. Laughery, secretary and treasurer; Mrs. W. E. Hardin, chairman of personal service, and Mrs. W. J. Hinkle, press reporter.

The next meeting of the circle will be with Mrs. H. B. Heath. The lesson will be Proverbs, 9th to 18th chaptres.

Wayside Items.

Weather still hot and dry, nights pleasant for the most part, mornings cool.

After weeks of strenuous work for all concerned, harvest is about over. Lots of grain still on the ground. Last Wednesday night a truck load of wheat was stolen from L. B. Rogers section, Kelley McGehee, owner.

J. W. McCrerey, of Canyon was a caller at Wayside Tuesday.

H. Harrell and family left Friday for Abernathy, returning Sunday. His sister accompanied them for a week.

Mrs. Will Howard and mother, Mrs. Lou Gillham motored to Happy Saturday.

Loyse Knox was taken home Friday. His sisters, Mrs. J. T. McGehee and Mrs. Eugene Carter carried him. He stood the trip and is getting along tolerably well, able to be about some.

John T. McGehee and wife left for Mills Ranch, N. M., Tuesday.

Kenneth Knox and wife, from near Lockney, have returned and will resume the management of the Knox store at Wayside, first of August.

George Hancock, wife, and Jerry of Pampa visited the Lane home the past week end. They left for Mills Ranch, New Mexico, Monday for a few days vacation.

W. C. McGehee and family were dinner guests with Mrs. J. C. Payne, Sunday.

Rev. J. R. Plant, wife and Jack, Jr., were at Wayside Sunday, filling his appointment at 11 a. m. He announced Rev. Butterfield, a local Methodist preacher would deliver a lecture Sunday night on his experience with the Indians in the Territory, years ago.

A goodly crowd greeted Rev. Butterfield Sunday night. All seemed to appreciate the incidents he related as he told of his experience with the Apaches, Comanches, Kiowass, and other tribes of the red man. He went as a preacher, and with the help of his wife, did a good work among them. We hope he will favor us again with other lectures in his past experience with the Indians.

Rev. Butterfield exhibited an Indian bow and quiver of arrows he purchased from Mrs. Geronimo, wife of the famous chief. He numbered Quanah Parker among many as a good friend of his.

Mrs. Bernice McGehee came in Saturday and is spending a few days at the parental M. L. McGehee home.

Mr. and Mrs. D. M. Thomas and family visited in Lockney Sunday.

MRS. J. W. GREEN IS HONOREE AT SHOWER

A surprise miscellaneous household shower honoring Mrs. J. W. Green, whose home was considerably damaged by fire recently, was given Monday afternoon at the home of Mrs. L. Angel, 1301 Third Avenue, with Miss Irene Angel, Miss Jessie DeGraffenried, and Mrs. L. N. George as hostesses.

The rooms where the guests assembled were fragrant with colorful summer blossoms. The affair was a complete surprise to the honoree and following a delightful afternoon refreshments of ice cream and cake were served.

The list of invited guests included the following: Mrs. Joe Black, Mrs. J. L. Duflot, Mrs. A. R. Eastwood, Mrs. Dewey Foster, Mrs. Frank R. Phillips, Mrs. Mark L. Foster, Mrs. Frank Hicks, Mrs. J. Madison Daugherty, Mrs. Ralph Harter, Mrs. Burt Newlin, Mrs. T. S. Maxwell, Mrs. Sanford Black, Mrs. Hud Prichard, Mrs. Ray Campbell, Mrs. W. A. Warren, Mrs. Levi Cole, Mrs. Bill Black, Mrs. Guy Harp, Mrs. J. W. Kleinschmidt, Mrs. C. R. Burrow, Mrs. W. J. Wooten, Mrs. Harvey Cash, Mrs. M. C. DeGraffenried, Mrs. S. L. Ingham, Mrs. Joe Gamble, Mrs. Ed Harrell, Mrs. Barks, Mrs. A. W. Sternenberg, Mrs. Chas. Flesher, Mrs. J. S. Humphreys, Mrs. N. E. McIntire, Mrs. R. A. Terrill, Mrs. D. A. Shirley, Mrs. R. P. Jarrett, Mrs. C. N. Harrison, Mrs. Crane, Mrs. Marion Bishir, Mrs. Tom Knighton, Mrs. Ray McReynolds, Mrs. L. T. Lester, Mrs. G. A. Farlow, Mrs. S. B. McClure, Mrs. Dan K. Usery, and Miss Esther Rudolph.

MR. AND MRS. PIERLE ENTERTAIN MONDAY

Dr. and Mrs. C. A. Pierle entertained Monday evening with an informal dinner bridge at their home, 1208 Fifth Avenue.

Following a delicious dinner, several rounds of bridge were enjoyed. Fragrant summer flowers were lovely decorations in the entertaining rooms.

Those present included the following: Miss Mary Ellen Walton of Portales, Misses Eleanor and Margaret Pierle, H. R. Young of Philadelphia, Kenneth Fink, James Kennedy and the host and hostess.

GIRL SCOUTS MEET WITH MARY ORTON

The Girl Scouts held a meeting this week at the home of Mary Orton. The program was sponsored by Rosa Cash.

Katheryn Robinson gave a talk on the value of public speaking, following which Mary May Harrison gave a reading, "Willie at the Auction Party."

The real value of music was interestingly discussed by Armor Lee Greenfield. A violin solo, "The World is Waiting for the Sunrise" by Rubye Foster, a reading, "Lady Astor" by Dora Mae Plaster, and a cornet solo, "Moonlight on the River Colorado," by Mary Orton, were the closing numbers on the program.

Following the program, a Court of Honor was held. The next meeting will be held in the basement of the Presbyterian church.

FLATS AND SHARPS

The woman in the flat above
Takes vocal—how we curse—
And every day in every way
She's getting worse and worse.
—Jackson (Fla.) Times-Union.

The young man in the flat beneath
Takes lessons on the clarinet
We've missed him four times up to date
But we'll "get" that critter yet.
—Buffalo Evening News.

He who casts the first stone generally breaks the window glass, but some of the other boys in the crowd may be blamed for it.

Bags Whopper

Walter Bellon, Jr., of San Diego, Calif., who excelled in marksmanship at the army and navy academy, from which he graduated recently, displayed his skill when he shot this huge brown bear, and the biggest to be bagged this season in Alaska. The bear measured more than 10 feet from head to hind quarters after it was bagged.

COMPETITION.

Suitor: "Do you ever peep thru the keyhole when I am sitting in the parlor with your sister?"

Small Brother (with a burst of candor): "Sometime, when mother ain't there."—Boston Transcript.

OH, YEAH?

Jones: "There's the little girl I'd like to have cooking for me in a little bungalow out in the suburbs."

Smith: "Who is she?"

Jones: "My wife."—Judge.

The size of the dollar depends entirely upon how many of them you have.

The most precious things in the world are those for which we pay nothing.

TRY THE MUSEUM.

Customer: "Waiter, wat's in this soup?"

Waiter: "Don't ask me, sir. I don't know one insect from another."—Bulletin (Sydney.)

Eating Is Reduced to Smaller Scale at French International Exposition

A general view of the scene of the French International Colonial Exhibition, showing some of the realistic exhibits created for the exhibition.

THE art of eating has undergone many changes during the past 50 years, but perhaps the most notable from the point of view of the caterer is that today people do not want to eat in large places or eat together in great numbers, according to Albert Delahaye, director of Potel et Chabot, famous Paris restaurant which has made history in its service.

There are close to 200 eating places at the International Colonial Exposition at Paris, but the majority are small and not one could take care of the customers who would sit together at former French expositions. A few hundreds would be a good crowd for dinner at the Potel et Chabot restaurant in the Indo China section, whereas during the exposition of 1900 this house served 22,695 persons at a lunch, all eating at the same time.

"The small restaurant is in keeping with the spirit of the times," explained Delahaye. "It is just as easy to serve large numbers, but people now want to feel a more intimate atmosphere in a restaurant. Just as the many and varied courses of the old days, comprising a dinner that would now be considered a disgraceful orgy, have dwindled to a few and with portions small, the size of the restaurant has been cut down.

The changed condition recalls the famous feast of the last great exposition in France which still is talked about as the largest ever held in the history of the world. It was served within a period of one hour and 25 minutes on Sept. 22, 1900, and was known as the Banquet of the Mayors of France. The notes and plans for the banquet, made by M. Legrand, then director of Potel and Chabot, are still in the archives of the house.

Fed Huge Crowd

The lunch was arranged for 25,000 plates and was given in the Tuileries, in the open air. Three thousand workers, of which 2150 were waiters, were employed in the task of cooking and serving. The tables, covered by tents, covered five miles, and in addition there were 1100 side tables used in connection with the service. The table cloths and napkins together measured close to 20 miles in length.

The feast was a 10-course luncheon and 44,000 bottles of wine were served. There were 95,000 large plates, 30,000 desert plates, 25,000 glasses of four sizes, 60,000 knives, 55,000 forks, 55,000 spoons and 2000 packages of toothpicks.

After the official function was completed and the guests had departed, another 3500 persons were served, including the musical corps of the Garde Republicaine, the artists of the opera and the police and firemen on duty.

There is no demand for such a feast today, said Delahaye. Of late years the largest number to be served at one time comes under 5 [illegible].

Things would be a lot better if so many wives with 1895 model husbands would stop trying to trade 'em in on a 1931 model.

In starting a spring garden, always make it small enough for your wife to finish.

Nothing is so pathetic as an old man who has sown his wild oats, reaped the harvest and then turned reformer.

How much money does the average woman want? asks a lady writer. "More."

Knowledge is power but it does not help you to know, when you are almost home, that your gas tank is empty.

Some people who marry for good or worse think they get nothing but worse.

40 BUSHELS WHEAT BUY SUBSCRIPTIONS

Forty bushels of wheat have been taken on subscriptions for the Canyon News through Wednesday. There is every prospect that there will be even more in the very near future since wheat is being brought in all the time.

BAD CHECKS CAUSE ARREST OF 3 MEN

Two men, J. B. Grabb and R. A. McDuff of Memphis, were in jail in Amarillo Wednesday as a result of their arrest in Dalhart for forging checks here at the "M" System, Piggly-Wiggly, and the Canyon Supply Company and in Dalhart.

Having forged checks here late Friday afternoon, they left town before they could be detected. Warnings and notices were sent out at once. When one of them attempted to forge a check in Dalhart, he was detected and arrected. The other was arrested on the highway north of Amarillo. In default of bonds in amount of $5000 each, they were placed in jail.

Porter Pierce, Toby Haines, and J. R. Cox, accompanied by Bob Barnett, deputy sheriff went to Dalhart Tuesday to identify the men. They were brought back to Amarillo to jail that night.

Paul Lofgren is in the Potter county jail as a result of his giving a "hot check" to the Canyon News, July 7. Arrested July 25, he pleaded guilty to the charge and was sentenced to 26 days in jail.

MRS. MATTIE WARWICK NOT DOING WELL

Mrs. Mattie J. Warwick, mother of Clyde W. Warwick, has been seriously ill at a hospital in Long Beach, California, after an attack of pneumonia and a slight attack of paralysis about two weeks ago. The latest report from Mrs. Clyde Warwick who went to California about two weeks ago is that Mrs. Warwick is not doing very well and that she will probably remain in the hospital for several days.

CAR TRANSFERS

One new car was bought and thirteen used cars were transferred during the past week. They were:

C. W. Bryan, new Ford sedan.
George Franks, used Chevrolet coupe.
Boyce Young, used Ford coupe.
M. A. Burks, used Chevrolet sedan.
H. W. Webb, used Chevrolet coach.
Ferris Bounds, used Ford coupe.
A. O. Shopshire, used Ford touring.
Hugo Fehr, used Chevrolet touring.
Farwell Motor Co., used Chevrolet sedan.
H. W. Crane, used Ford touring.
Lee Shirley, used Chevrolet coach.
J. D. Barker, used Ford coupe.
Nannie Slade, used Ford coupe.

When we all become perfect, we may then feel perfectly competent to make suggestions to others regarding their conduct.

Astronomer

Star gazing takes up a large amount of the time of Miss A. J. Cannon, who has been connected with the Harvard observatory for the last 30 years. Miss Cannon, who is a graduate of Wellesley College and Oxford in England, has won world-renown as one of the first women to achieve success in this field.

CRONINS VISIT

Mr. and Mrs. R. W. Cronin and family of Barham, La., arrived Friday for a visit in the home of W. H. Hardin. This is their first visit to the Panhandle. They report that they are favorably impressed by this country. They have visited the Palo Duro and Ceta canyons. Mrs. Cronin is Mr. Hardin's sister.

Jowell News

Mr. and Mrs. Bob Visage motored to Lockney Friday.

Rev. Lindley of Tulia filled his regular appointment at Jowell Sunday. Rev. and Mrs. Lindley took dinner with Mr. and Mrs. H. F. Garvin.

Mrs. Louis Hinders, Mrs. Mary Burtz, Mrs. A. L. Glenn and Mrs. M. W. Dooley visited with Mrs. J. J. Leavitt Sunday.

Mrs. Lawrence Sims and sons, who have been visiting relatives here for the past two weeks, left Monday for their home at Seminole, Texas.

Mr. and Mrs. Lucas and children of White Deer, visited at the home of their daughter, Mr. and Mrs. O. Smith, Wednesday and Thursday of last week.

Mrs. A. L. Glenn and Mrs. Jack Hollingsworth and children spent Thursday with Mrs. W. H. Lowe.

Miss Christine Sims spent Wednesday afternoon with Miss Mabel Leavitt.

BIGGEST NOISE.

"So Joe was the life of the party?"

"Yeah. He was the only one who could talk louder than the radio."—Life.

Another good way to save is to make more money than you have time or convenience to spend.

It's usually the girl with the most cheek who blushes the least.

The man who fears he will hurt himself working is the one who wonders how others get ahead so rapidly.

Asking a man his opinion of the automobile he drives is the same as asking his wife about the children.

FULTON HERD TAKES FIRST PLACE ON JULY HONOR ROLL; J. W. WATSON HAS HIGH COW

The July Honor Roll of the Randall County Herd Improvement Association lists 69 cows from 10 herds; 12 cows from 7 herds are given honorable mention, C. B. Ray, association tester announces.

The H. R. Fulton herd of grade Jerseys held the limelight of the association again this month. This herd which took most of the yearly honors, for the association year ending July 1, promises to make a strong bid for the yearly honors again by the outstanding showing of the past month.

The high cow in the association is from the J. W. Watson herd this month. Whitie, a grade Jersey produced 1432 pounds of milk and 80.2 pounds of butterfat.

The Tierra Blanca Jersey Farm tied with the Watson herd for second place honors with 10 cows each on the roll.

A study of the average figures on the butterfat production in the herds is very interesting. The Fulton herd is composed of 36 cows. They produced an average of 45.2 pounds of butterfat for the entire herd for the month.

The honor roll cows in the Watson herd produced the high average of 57.5 pounds of butterfat each for the month. The C. C. Stewart cows on the honor roll averaged 52.6 pounds of butterfat each for the month.

The complete honor roll is as follows:

J. P. Upchurch: Lucille, GJ.

Tierra Blanca Jersey Farm: Fry Pet, RJ.

Albert Byars: Bobbie, GJ; Buttercup, GJ.; Romer, GJ.

H. B. Hales: Spot, GH.

HILL AND WORTHAM ATTEND MEET FRIDAY

J. A. Hill, vice president of the Panhandle of Texas, Inc., and Fred Wortham, secretary of the Chamber of Commerce, will attend a meeting of the Panhandle of Texas, Inc., in Amarillo, Friday morning. The meeting will extend into the afternoon.

Final arrangements will be made for sending out the exhibits of the Panhandle of Texas, Inc.

Work on the preparation of Randall county's page in the Panhandle of Texas, Inc., booklet is well under way. This page is being sponsored by the Chamber of Commerce. Mr. Wortham states that a wide program of diversification will be shown on the county's page.

This will show the educational advantages, wide range of crops grown, several modern farm scenes, livestock scenes and views of the Palo Duro canyon.

The magazine will be printed in rotogravure and will be distributed by the exhibitors of the Panhandle of Texas, Inc., who visit the large fairs over the middle-west. These booklets which show the many wonderful resources in the Panhandle, both in word and picture, will be of much educational benefit, it is thought.

400 PEOPLE VISIT PALO DURO PARK

Over 400 people from widely separated points in the state and nation passed through the gates of the Palo Duro Park 12 miles east of Canyon on Sunday, July 26, according to the records of the custodian, Ray V. Davis. Forty-six Texas cities were represented, and twenty-one states.

Mody C. Boatright Publishes Book of Cowboy Camp Tales

Another W. T. graduate, Mody C. Boatright, is making famous this institution for his outstanding work in the field of journalism. Mr. Boatright, a '22 graduate of this school and a former instructor of English in the high school division of the W. T. training school.

Mr. Boatright, now an instructor in English in the University of Texas, has written a book of cowboy stories which is to be published by the Southwestern Press sometime in September.

The book, which is entitled, "Tall Tales from the Cowboy Camps," is a collection of humorous cowboy stories. These stories are arranged in groups under chapter headings giving the subjects around which they are grouped. For instance there are chapters containing tales revolving around narrow escapes, rattle snakes, and Pecos Bill. The book is to be illustrated by Jack Patton of Dallas.

Mr. Boatright says that he has been collecting these tales since his college days when he first became interested in them, and he has done all his collecting in Texas, although some of the tales deal with other sections of the country and have other settings.

The July number of the "South Atlantic Quarterly" also contains an article by Mr. Boatright, "The Tall Tales in Texas."

"The Daily Texan," carries practically the same write-up of Mr. Boatright's recent success in this field.

RANDALL JERSEYS MAKE HONOR ROLL

Three Registered Jerseys from herds in Randall county were listed on the June Dairy Honor Roll of Texas, according to figures released recently by A. L. Darnell, superintendent of Official Testing in Texas.

Two of the cows were from the C. C. Stewart herd. They were: Ella Topsy, with 1,077 pounds of milk and 65.40 pounds of butterfat; and Gamboge's Knight's Sybil Spot, with 1,302 pounds of milk and 57.60 pounds of butterfat.

Lady Rosette's Pauline in the J. W. Watson herd produced 984 pounds of milk and 50.10 pounds of butterfat, according to the official records.

Only 94 cows in the entire state were listed on the June roll.

All virtues depend upon the strength we have to resist temptation.

Farming pays in Randall county.

Keep Building

The COUNTY The COLLEGE And CANYON

CHAMBER OF COMERCE

FRED E. WORTHAM, Secretary

The Museum Building

When erected, the Panhandle-Plains Historical Society museum will be worth far more to Canyon and to the College than the majority of people here realise.

In the first place, it will be the first state museum erected in Texas. Also it will house the most extenaive collection of relics of exceeding interest of pioneer days in the Southwest in general and of the Panhandle and Plains country in particular.

When the museum is completed and opened to the public, thousands of people will come here to visit it. Already there have been hundreds to see the collection now housed in the two rooms of the college administration building.

Monday morning, L. F. Sheffy, field secretary of the socley agreed to open the museum room to allow three out of town visitors to see the present collections. Before the appointed time for opening the doors, 10 or 12 other visitors in Canyon had gone to the college wanting to see the museum. Upon learning that it would be opened for a while they waited. Later others came, until some 20 persons or more went through the rooms when it was opened upon the request of only a few.

With little or no effort on the part of the society, large numbers of private collections of historical interest and value can be secured for the museum. Only a few days ago the society received a shipment from Iowa, which contained a collection of old harness and saddle makers catalogs and other interesting booklets.

Another striking example of the outside interest in the museum is the unearthing of the fossil of a mastodon near Amarillo last week and the findings being donated to the society.

Canyon will reap heavily from the erection of the museum on the West Texas State Teachers College campus. Linked with the canyons, the museum will mean that Canyon will be the center of tourist travel through the Panhandle country within the next year or so. Few tourists will pass within easy driving distance, who will not come to Canyon to see these things of interest.

Let's build the Museum.

The Wheat Situation

Of course much has been said, and much more will be said concerning the wheat situation. All of which will amount to little so far as stimulating the market conditions.

This writer saw one sight last week which was indeed a new one for him and very unusual to say the least. One farmer in the northeast part of Randall county had quit harvesting wheat, that would apparently yield 8 or 10 bushels to the acre, and was setting fire to the standing grain. He was followng the fire with a tractor and plow.

This was a sight we believe that has not been seen very often in this country, during the past few years at least. Few times in the history of the county has the market conditions been such that farmers preferred to burn their wheat rather than to cut it.

Here's a bit of foolishness on wheat, which may be considered "more truth than poetry:"

"Wheat is that kernel of grain that during the past two years has degenerated to a rank lower than a buck private. It is sown and sometimes harvested in West Texas to keep the wheat farmer broke and the business man crazy. The yield of wheat varies, and the man who can guess the nearest to the yield is called a fool by the farmer, a poor business man by his creditors and a banker by the public.

"The price of wheat is fixed in New York, or somewhere else but it's not fixed so blamed good. It always manages to drop down to a new low price just at harvest time, and to jump back up again just as soon as harvest is over.

"Wheat is planted in the fall, mortgaged in the winter and burned up in the summer. If the farmer gets a good planting season in the fall, he is sure to make a bumper crop, provided of course, that he gets plenty of snow in the winter, plenty of rain in the spring, little rain in the summer and no hail or smut at all, anytime. If the price of wheat is up, the mortgage is up, and if the price of wheat is down, the mortgage is up a little bit higher. Everybody tries to make money out of wheat, and nobody ever does.

"The uses of wheat are forever increasing. Hoover's newest plan is to use wheat to fill up the ocean. It's most common use is to keep the insane asylums filled with farmers and business men. Wheat is about the only thing that the world has an oversupply of, and yet is starving for.

"To the rest of the world, wheat is the staff of life, but to the Panhandle, it's just a pain in the neck!"

The Break of Dawn

A light on the horizon for the farmer in Randall county will be a program of diversification. A live-at-home campaign will mean much to quckly pass the present depressed condition.

Already the whistles of long silent factories can be heard in many places; dinner pails are seen on the arms of men early in the morning as they go to work, who a few weeks ago were walking the streets earnestly seeking some kind of work; crude oil prices in the Panhandle are on the upward trend; new things await in the future.

These very sights can be seen near at home. The Post, Texas, cotton mills are again operating on a full time schedule, with a bright prospect for the coming fall and winter months. The cheese plant at Abernathy, is again running full blast, paying farmers 26 cents per pound for butterfat, after a long shut down. News dispatches state that the town of Tascosa is turning back to prosperity with the completion of high-tension power lines to that section. Prospects are splendid for fall crops in West Texas. Can it be that we see the break of dawn in the dark business situation? The sun will soon rise and all will be well.

Trade at home and see how it feels.

Be loyal to your community and its interests. Your support is needed. If you are not a member of the chamber of commerce, join now.

A commendable feature of the advertisement of a certain Canyon firm in the last issue of the News was its invitation for the home people to vsit the canyons and become acquainted with the beauties of nature near at hand.

The Grain Show

When a person excells in any line of endeavor that person is worthy of recognition and praise for his achievement.

On Saturday, August 1, Wheat Day will be held in Canyon. In connection a grain show will be staged. The farmers in this trade territory, who raised the best in wheat, oats, barley and rye, will be rewarded in a small way when the grains are exhibited.

Come to Canyon next Saturday.

Boost for your community. Unified effort will do the trick.

Amarillo Depends on Randall

Did you know that Amarillo was very dependent on Randall county for its most necessary needs in daily life?

From Randall county Amarillo receives about 75 per cent of her supply of rich, pure and wholesome milk. Located in Randall county is the best equipped dairy in West Texas, and one which will vie with any others for the state honors.

Canyon people who have not visited the E. E. Mauldin dairy south of Amarillo and in this county, will enjoy a visit to that modern plant where cleanliness is personified.

From Randall county is carried the water supply to the Potter county capital. The new water system of several wells recently added to the Amarillo water supply, located in the north part of this country is very interesting and will be worth a drive up to see them. They are located along the water pipe-line from the Word ranch wells.

For Protection of Health

For the protection of the health of the students who come to Canyon to attend college, and who entrust their health to our citizenry, Canyon is sadly in need of a good milk ordinance. Milk, when handled properly is one of the best foods for the human body, but when contaminated, it is practically as dangerous as poison.

You have got to tell 'em if you want to sell 'em! ADVERTISE!!

Fairview Breezes

The showers which fell Monday and Thursday were welcomed by all.

W. M. and H. M. Kinsey were business callers in Happy Monday.

Mr. and Mrs. Sam Barrett spent Sunday night with Mr. and Mrs. H. H. Sutton.

Mr. and Mrs. J. W. Wesley, son and daughter, also Austin Roberts were visitors in the Patterson home.

A number of the young people gathered at the M. J. Wesley home Sunday night for a singing.

Miss Myrtle McGown of Dawn, is visiting Miss Iva Lee James.

Mr. and Mrs. Sam Barrett, Mr. and Mrs. H. H. Sutton and son, also Miss Annie Washburn spent Sunday picnicking at the Baptist Encampment.

Mrs. W. M. Kinsey and Mrs. H. M. Kinsey motored to Dimmitt Saturday.

Bill James and Misses Myrtle McGown and Iva Lee James were callers in Happy Friday.

Some of the young people from this community attended the party at J. B. Cox's near Happy.

Do your shopping in Canyon.

"Stop at The White Pumps"

Service plus a good dependable product at a saving in price is what the white pumps are offering the motorist of Canyon. Our price on gasoline remains the same, eleven cents per gallon. Hundreds of motorists are saving money by buying their gas here. You too, can make a saving by buying your gas and oils from the white pumps. Stop by sometime and say "fill her up with good 11c independent gas."

Chamber of Commerce of
of Amarillo.
R. P. Parcells, president
O. V. Vernon, Gen. Mgr.

This wire was sent to the Chambers of Commerce in all the Panhandle towns with a request that wires be sent to Governor Sterling to take some action.

Mr. Wortham sent the following telegram to Governor Sterling:

Honorable Ross S. Sterling,
Governor of Texas,
Austin, Texas.

We urge your excellency to give due consideration to appeal for saving last large herd of buffalo in this state, the famous Goodnight herd, from being slaughtered. We ask your action on creating a state park and game preserve in the Panhandle for keeping them if acquired by the state.

Canyon Chamber of Commerce,
Fred E. Wortham, Sec'y.

Craig Fattens Stock

(Continued from first page)

price of the grain makes it very favorable for feeding, which will result in more profit on the market, in the form of fattened hogs and beef cattle, than at the present grain quotations.

On his farm Mr. Craig has 375 head of hogs. These are being fed a ration of ground grains. His plan of equipment is ideal for feeding the hogs. He has built-in self feeders in one side of his barn. From inside the building these feeders may be easily filled and the hogs have access to as much feed as they want, whenever they want it.

There is a large feed grinding mill, with which all feed is ground. It is powered by a tractor. All feed may be ground and mixed, ready for feeding at only a small cost. The new elevator is constructed so as to permit grain to be sent direct from the grain bins to the feed grinder in one operation. Thus much work is eliminated.

All of the operations of handling the grain from the time it is harvested by the combine, until the time it is placed in the self feeder for the hogs, may be done by machinery. Trucks are used to haul it from the combine to the granary where it is dumped into the elevator which places it in the bins. From there it is sent to the feed mill, from which a conveyor takes it to the self feeders.

Mr. Craig has been a breeder of Duroc Jersey hogs for fifteen years. Two years ago he disposed of all the hogs he owned, but purchased over 400 hogs this past spring to enter the hog raising and feeding business again.

In another feed lot on the farm is a small herd of 33 Hereford steers almost ready for market. These, too, are being fed on rations of ground grains. They have been fed since December of last year and appear to be in prime condition. When these are shipped to market within the next few weeks, others will be brought from the pasture and placed in the feed lot to be fattened.

With the low cost of the feed stuff now on hand and the equipment for handling it in feeding livestock, with a very low handling cost, Mr. Craig is fully confident that he can make more money than if he were to sell the grain on the market at the present time. He declares that he has not raised enough wheat to carry out his plans for feeding this winter, although he has his storage bins filled to capacity. He plans to buy more wheat while it can be obtained at such ridiculously low prices.

The Craigs also go on a live-at-home plan. A large well kept garden is to be seen, as well as a small fruit orchard. A large flock of chicken are fed mostly on waste grains. These share in carrying out the idea on the Craig farm, that a one-crop farm doesnt' pay.

FORMAL OPENING WELL ATTENDED

The formal opening of the new hardware store, The Canyon Hardware Company, was well attended by the people of Randall county last Saturday.

Sixty-five gallons of lemonade were consumed, 350 can openers and 150 paring knives were given to the women who visited the store. By 3:30 o'clock they had all been given away, according to Donald Trollinger, owner of the store.

Renew Your Health by Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs,—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs purify the blood by activating the liver, kidneys, stomach and bowels. Trial package, 10 cts. Family package, 35 cts. All dealers. (Adv.)

HELPS MENSTRUATION

DO-TELL, when taken with water, is highly recommended for relief of pains, cramps and headaches due to painful menstruation. City Pharmacy sells Do-Tell. 1

Extension Courses In Elementary Education Planned

There have been several requests in regard to the rumor that Extension course will be offered the coming winter.

In answer to the query Dr. Jarrett says: "We are planning to offer in Amarillo during the winter term, three courses in elementary education which will be open to under graduate and graduate students. Any teacher who lives near Amarillo will be welcome. The main part will deal with methods of teaching the specific subjects, the object being that of improving teachers in service. Indications are that we will have a large class. Superintendents and teachers of the surrounding territory may secure this or similar work if they care for it."

KENNEDY HAS CHARGE PAINT TEST STATION

A student in chemistry at the College will have charge of the supervision of a new paint exposure station recently constructed on the College Farm. Dr. C. A. Pierle, head of the department of chemistry, has charge of the administration of the Industrial Research grant which allows him to name the chemistry student to supervise the Station.

J. H. Kennedy is the present holder of the grant. He has the privilege of retaining the grant as long as he is in the College.

The test station will run five years, with the privilege of an option for an additional five years.

Approximately seven hundred running feet of test fences have been erected at the present time; all have a direct southern exposure. "It is probable that the amount of exposure fence will be increased from time to time," according to H. R. Young, of the Central Technical Laboratory, Philadelphia, Pa., who has charge of the construction of the station here.

Canyon, the twelfth station to be founded, was chosen because of climatic reasons.

COLLEGE PLAYGROUND LEAGUE ORGANIZED

A playground baseball league has been organized at the College under the direction of Mitchell Jones, freshman coach. The team composed of college men plays three afternoons a week ordinarily.

Umbarger Items

A large crowd attended the dance given in the Umbarger Parish Hall, Thursday evening.

Mr. and Mrs. John Brandt left for Nebraska where they will visit with relatives and friends.

Mr. and Mrs. Anton Beckman, Mr. and Mrs. Wolfe, Mr. and Mrs. M. Hollenstein and Anton Summers were visitors at the home of Mr. and Mrs. Otto Podzemny.

A large number of friends and relatives attended the party given at the home of Mr. and Mrs. E. J. Friemel Sunday evening.

Mrs. Leo Stoker and daughter Anna, were business callers in Canyon Saturday.

A number of the Umbarger folks went swimming Sunday afternoon, and everyone had a good time.

W. M. S. HELD ZONE MEETING HERE WEDNESDAY

"Keep on, keep on" was the theme chosen for the third quarterly zone meeting of the Woman's Missionary societies of Methodist Churches, which was held all day Wednesday at the First Methodist Church here.

"THE HITCH-HIKER LAW"

The law to relieve motorists of liability to free passengers in his car, called the "hitch-hiker" law, which was passed by the regular session of the Forty-second Legislature, goes into effect August 27. After that date no free passenger of an automobile in Teaas will have a cause of action against the owner of the automobile because of injuries which may be sustained by the free passenger. Exceptions are made, of course, in cases where it can be shown that the injuries resulted from malice or recklessness on the part of the owner.

The law corrects a situation which contained possibilities of outrage. There have been damage suits by hitch-hikers against car owners because of injuries sustained in accidents for which the owner of the car was not to blame, and owners have been forced to pay. There have been, perhaps, more suits of this kind by persons riding in an automobile as invited guests of the owner. In the future it will be necessary for such complaints to show that malice or recklessness existed, in order to get their claims entered by a court. —Fort Worth Star-Telegram.

STORK SPECIALS

Born to Mr. and Mrs. H. H. Hand, a son, Fay, July 24th.

Born at the home of Mr. and Mrs. J. D. Key, a son, to Mr. and Mrs. Homer Bridges, of Texon, Texas, Don Dayton, July 27th. Mrs. Bridges was formerly Miss Emma Key.
